

Dr. Alyn AV Requirements

In order to provide the absolute best presentation for your audience, Dr. Alyn requires the following audio/visual equipment:

- 1) A projector compatible with a PC laptop computer (Dr. Alyn brings her own computer). Projector should have 3,000 lumens or higher.
- 2) A computer sound patch cord to enable sound from embedded video to play through the central sound system.
- 3) A large projection screen.
- 4) For audience sizes over 500, multiple projection screens are recommended as well as the use of IMAG (Image Magnification which projects the speaker's image on the big screen).
- 5) For audience sizes up to 150, a lavalier microphone or cordless handheld microphone.
- 6) For audience sizes over 150, a cordless handheld microphone.
- 7) Dr. Alyn will bring her own wireless mouse/clicker for her presentation.
